PREFACE.

In preparing the Directory for the present year, the returns have shown, as was expected, a slight decrease of names. Last year the number of names was 56,933 — this year it is 55,519.

This decrease is more than accounted for by the great number of our citizens who have gone to the war, a large part of whom are of that class whose names would appear in the Directory if they were here.

In the Massachusetts Register for 1862 we gave the names and residences of all the Massachusetts volunteers who had left for the seat of war previous to March 1st; and among the three years' men alone are found about 4,000 from Boston — 300 being commissioned officers. Of these 4,000, those who have left families in Boston, or retained their places of business during their absence (only a small proportion of course), appear in the Directory, and against their names we have, generally, stated the regiment to which they belong.

The Directory of 1861 was printed on a much heavier paper than any previous year; but this is on paper of the usual weight; also various items, such as the Streets, Banks, Insurance Companies, &c., have been printed in smaller type; so that any one noticing the diminished bulk of the book must not infer from it that the amount of information is also diminished in the same proportion.

The mode of stating some firms, which we adopted two years since, not seeming to be appreciated, and being attended with considerable extra care and labor, we have this year stated them in the old way, viz., putting the style of the firm in connection with the name of the given partner.

Although the expense of compiling the Directory has very greatly increased with the growth of the city, yet the price of the book has not been raised since 1853.

The Directory for 1853 contained 38,000 names, while this contains more than 55,000. That was a book of 440 pages, this of 650.

In that, the place of business was only given against the first partner of a firm. In this, it is given against each partner. Boston was then a city of about 150,000 inhabitants, in about 15,000 houses. Now it contains 180,000 inhabitants, in 20,000 houses. Its territory has also been increased during the same period, to a considerable extent, by filling in of new lands and the annexation of Washington Village.

Notwithstanding the increased labor and expense in the compilation of the work, which these changes have rendered necessary, still the publishers of the Directory desire to keep the price of the book the same as formerly (viz. \$1.50), for a year or two longer, and in so doing they are confident that they offer to the citizens of Boston the best and cheapest Directory in the world.

The publishers hope that, in consideration of this fact, the business men of the city will give a liberal support to so indispensable a work. If any feel disposed to make the last year's Directory answer their purpose, because business is not as brisk as in ordinary times, let them consider that in these times changes are more numerous than usual; also that one or two blunders made in consequence of using a last year's Directory, may actually cost them more money than would buy several Directories.

We are not so vain as to suppose that perfection has been attained in this issue, for it is impossible to collect, compile, and print so many names and figures without some omissions and errors; but we do feel confident that no work of the same character is to be found containing fewer mistakes, and we assure such persons as find themselves incorrectly entered, that they cannot regret it more than we do, and that special efforts will be made to prevent the same error occurring in future issues.

In canvassing for the Directory, there are not less than 30,000 persons personally applied to for information; and while we thank them for the courtesy which they almost universally show in answering our questions, we would also suggest that the correctness of the book depends, in a great measure, upon the correctness with which they give the desired information concerning themselves, their families, or their employees. We have this year experienced more difficulty than usual in collecting our information because various parties have been on the ground at the same time, or just before us, canvassing for Business or Advertising Directories, thus leading many to suppose that they had already given the information for the regular Boston Directory, and obliging our canvassers to go into quite an explanation before they could get the desired answers.

To one point we wish to call particular attention, viz., — That our agents *never take pay in advance*, and that any one asking for pay in advance, has no connection with us or any of our works.

At the Directory office is kept a record of such changes as come to our knowledge during the year, and persons changing their business or residence are invited to give us notice of the same.

Besides Directories of the fourteen cities, which we publish, we also keep a full assortment of all Directories published in the United States, and some from foreign countries; and persons wishing to learn the whereabouts of a single individual from any of them, we are happy to accommodate, free of charge; and those wishing more than that, such as lists of traders or manufacturers in different localities, we are equally happy to accommodate for a fair compensation.

NEW ENGLAND REAL ESTATE OFFICE,

W. GOWARD, . . . PROPRIETOR.

All persons wishing to purchase Farms, Country Residences, or Real Estate of any description, will find, by applying at our Office, the most complete and extensive list of Real Estate to be found in New England.

Having personally examined most of them, *only* such description will be given as will be found correct upon examination.

Those who cannot make it convenient to call at our office, can be furnished with a copy of the "Real Estate Register," sent to their address, post paid, for two three-cent postage stamps, which contains a larger amount of Real Estate for sale than all the newspapers in New England combined.

PARTICULAR NOTICE.

To persons having Farms, Country Residences, Lands, Factories, or Real Estate of any kind for sale, we would say, that by our long experience in the REAL ESTATE BUSINESS, and other superior advantages, we are enabled to offer greater facilities for the sale of such property than any other firm in New England. Those having property to sell will find it for their interest to give us a call.

TERMS FOR ADVERTISING IN THE REAL ESTATE REGISTER.—One square (12 lines) at the rate of \$2 per month,—larger advertisements same rate.

Commission for sale of Real Estate worth \$2,000 and upwards, one per cent. on the amount of sale; estates valued at \$2,000 or less, \$20.

In case property is not sold, no charge will be made, except for advertising.

Advertisements inserted in any of the Boston papers at the publishers' lowest rates.

☞ All business left in our charge receives our personal attention, and will be executed with fidelity and dispatch.

W. GOWARD,

Real Estate Agent, and Publisher of the "Real Estate Register," No. 91 Washington Street, Boston.

MUTUAL LIFE INSURANCE COMPANY, of New York; CASH ASSETS, \$8,500,000; Frederick S. Winston, *President*; Office, No. 94 Broadway. This company offers the following peculiar advantages to persons intending to insure their lives:—Its assets are larger than those of any other Life Insurance Company in the United States, amounting to over eight millions of dollars, and are exclusively cash; the proportion of its cash assets to the amount at risk, is greater than that of any other Life Insurance Company in the United States; its rates of premium are lower than those of the majority of other Life Insurance Companies—yet its dividends have been greater, the result of a very low rate of mortality among the insured, consequent on a most careful and judicious selection of lives; the mortality among its members has been proportionably less than that of any other Life Insurance Company in either America or Europe whose experience has been made known—a result in the highest degree favorable to policy-holders. The number of lives insured in this company greatly exceeds that of any other Life Insurance Company in the United States, thus affording a security above them all—the necessary law of average having more scope for operation; The assets of the Company are invested exclusively on bond and mortgage on real estate in the city and State of New York, worth in each case at least double the amount loaned, and bearing interest at seven per cent., and in United States stocks; the solidity and security of this disposition of the Company's funds cannot be over-rated. This Company will as usual pay, on application at the office, the cash value of any policy, when the holder wishes to surrender the same. Circulars containing the rates of premium, and a full explanation of the new scheme of survivorship annuities, may be had on application at the office of the company. Isaac Abbott, *Secretary*; Sheppard Homans, *Actuary*; Minton Post, M. D., *Medical Examiner*. Note.—The business of this company is conducted on the mutual principle, in the strictest sense of the term;

the entire surplus, deducting necessary expenses alone, being equally divided among the assured. The following descriptions of policies are issued by this company, the premiums on which are payable yearly, half yearly, or quarterly, at the option of the party assured:—1st. Life Policies.—These are issued for the whole term of life, payable, together with the declared profits, after the death of the parties assured, to the person entitled to receive the same; 2d. Life Policies, *with payments of premiums to cease at given ages*;—these are also payable, with the profits, at the death of the assured, but the entire premiums necessarily cease at the stipulated age; 3d. Endowment Assurance Policies;—these are issued to persons desirous of making provision for advanced life, or any other purpose, and are payable to the assured party on attaining a certain age, say 50, 55, 60 or 65, or in case of his death before arriving at that age, to his heirs or assigns; 4th. Endowment Policies for Children;—these are payable when the child attains the age of 18, 21, or 25 years, or upwards, either with or without the return of the whole premium paid, in case the party assured does not attain the specified age; also, Survivorship Annuities, by which the avails of a life policy are payable to a wife or other nominee, in quarterly, semi-annual, or annual amounts, during their lives, thus saving the expense and risk of investment; the investments are on bond and mortgage, (always first lien), on improved real estate, for half its value or less, and in United States stocks—amounting to over \$8,000,000, the property of the policy-holders; the solidity and security of this disposition of the Company's funds cannot be over-rated. HENRY H. HYDE, *Agent*, No. 95 State St., Boston; Calvin Ellis, M. D., *Medical Examiner*; office hours, 11 to 1 o'clock; all necessary information will be given at the office, where also may be obtained pamphlets, Forms of Application, &c.; A. & A. Provided, that in no case shall any stable be charged less than \$5.		
The right to attach a hose, of not more than five-eighths of an inch orifice, for washing windows or sprinkling streets, in addition to the charge for other uses, not less than \$3; but no hose shall be attached or used in any stable, for washing horses or carriages, or for any other purpose whatever, except for extinguishing fires.		
Refectories, confectioneries, eating houses, market and fish stalls, provision shops, refreshment and oyster saloons, according to the quantity of water used, from	8 to 50 00	
Public baths, for each tub,	5 00	
Every printing office, according to the number of presses used, not including the supplying of a steam engine, from	6 to 40 00	
Stationary steam engines, working not over twelve hours a day, shall be charged by the horse power, as follows: for each horse power not exceeding		
ten, \$10; for each exceeding ten and not over fifteen, \$8; for each horse power over fifteen,	6 00	
Every Railroad Corporation, for supply of locomotive engines, according to the quantity used, as ascertained by metres or otherwise, and also for supply of passenger stations.		
Steamboats shall be charged upon the estimated quantity of water consumed, and at the same rate as charged for manufacturing purposes; provided, however, that no water shall be allowed for washing purposes, except by special permission from the Cochituate Water Board, under a penalty of	\$10 00	
For building purposes, for each cask of lime or cement,	0 7	
Fountains are only to be supplied with water at the discretion of the Cochituate Water Board; and shall be charged upon the estimated quantity used each day, for each 100 gallons daily consumption,	5 00	
Bakeries. For the average daily use of flour, for each barrel, the sum of \$3 per annum; provided, that in no case shall any bakery be charged less than	6 00	
All manufacturing and other business, requiring a large quantity of water, shall be charged therefor, for 100 gallons, on the average estimated quantity during the year; the year to be estimated 300 days, as follows:		
When the quantity used averages 500 gallons per day, or less, at the rate of 6 cents per 100 gallons.		
When the quantity averages from 500 to 1000 gallons per day, at the rate of 5½ cents per 100 gallons; from 1000 to 2000 gallons per day, 5¼ cents per 100 gallons; from 2000 to 3000 gallons per day, 5 cents per 100 gallons; from 3000 to 4000 gallons per day, 4¾ cents per 100 gallons; from 4000 to 5000 gallons per day, 4½ cents per 100 gallons; from 5000 to 6000 gallons per day, 4 cents per 100 gallons; from 6000 to 7000 gallons per day, 3¾ cents per 100 gallons; from 7000 to 8000 gallons per day, 3½ cents per 100 gallons; from 8000 to 10,000 gallons per day, 3 cents per 100 gallons.		
When the quantity used exceeds 10,000 gallons per day, the price shall be fixed by the Water Registrar, but in no case at less than two cents per 100 gallons.		
When water is required for purposes which are not specified in the foregoing tariff, the rates are fixed by the Cochituate Water Board.		
Whenever two or more dwelling houses or other estates are valued together, for the assessment of taxes, it is the duty of the Water Registrar, under the direction of the Cochituate Water Board, to make a separate valuation of the same; and, whenever a portion only of any estate is justly chargeable for any water rate, it is the duty of the Water Registrar to make a proper valuation of the said portion; and the Water Rates apply to such valuation.		
The Cochituate Water Board have power to ascertain by metres the quantity of water used in any case; and the proprietors, or persons having charge of hotels, taverns, and boarding houses shall also have power to place within their premises, at their own expense, a sufficient water metre, to be approved by the Water Registrar, for the purpose of measuring the quantity of water by them respectively used. And, when in any case the quantity used is so ascertained and measured, the Cochituate Water Board may		

establish a water rate therefor, provided that the rate in no case be less than that charged to brewers, distillers, and other business requiring a large supply, for uses not specified under specific regulations.

The Cochituate Water Board have power to establish such regulations as they may deem expedient for the con-

struction of water closets; the water not to be supplied to any building unless water closets be made conformable to said regulations.

No charge is made for the right to insert a pipe of not more than one inch in diameter, at the expense of the water-taker, to be used only in case of fire.

MEDFORD BRANCH RAILROAD.

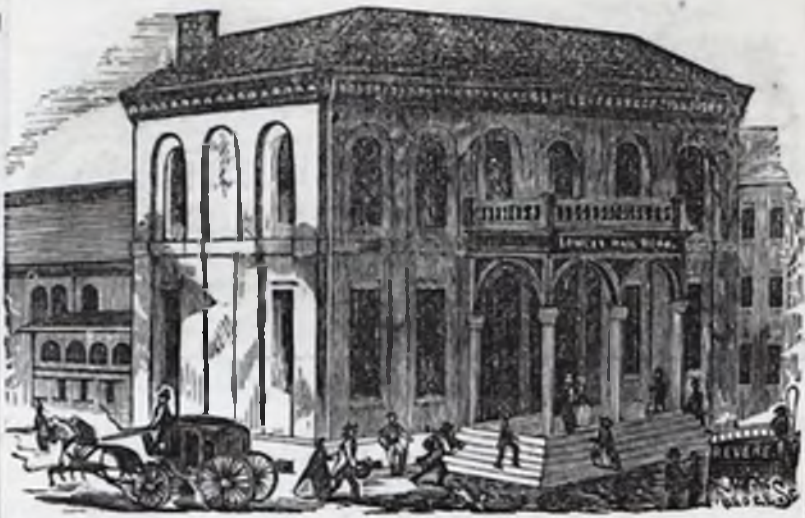

Trains run to and from MEDFORD, a distance of five miles, eight times a day each way. Fare 10 cents. 12 Package Tickets for \$1. Season Tickets, \$14 a year. Time, 15 minutes. This is a beautiful village, and a desirable place for summer residences.

ADVANTAGES OF A RESIDENCE ON THIS ROUTE.

Somerville, Medford, Malden, Melrose, South Reading, and Reading, towns within the range of the special, as well as the longer trains, possess many advantages for country residences, either through the warm season or the whole year, not exceeded by those of any other towns in the vicinity of Boston. The cheapness of the fare, the number of trains, both early and late, in connection with the convenient depot at Boston, render this railroad a desirable channel of intercourse between the city and country. That the advantages of these places are appreciated, is evident from the increasing demand for residences on this route, the demand for house lots and the steady rise in the value of the land.

Season Tickets are sold subject to the following Rules and Conditions, which form part of the Contract of Sale.

All Tickets will be made to terminate on the last day of March, June, September, and December. They must in all cases be prepaid.

For not exceeding ONE month, 50 per cent. of quarterly rates. For over one, and not exceeding TWO months, 75 per cent. of quarterly rates. For over two, and less than THREE months, same as three. For over three, and less than TWELVE months, quarterly rates. For TWELVE months, 10 per cent. discount from quarterly rates.

Season Tickets are not transferable. No allowance made for absence or non-usage.

Persons passing over the road without a Ticket, are liable to a penalty; they also forfeit their claim to a Season Ticket.

Persons under eighteen years of age, whose sole business is to acquire an education, will be furnished with a Scholar's Ticket, to be used for that object only, at 60 per cent. the above quarterly rates.

Holders of Season Tickets must present their Tickets for inspection, when so required by the Conductors, or pay the regular fare in the train, which will not be refunded.

Season Ticket Passengers are requested to deliver EXPIRED Tickets (on application for new ones) to Ticket Clerk.

Season Tickets are subject to the general regulations of the road, and do not entitle the holder to carry with him anything but his own personal baggage.

N. B. The Corporation is not bound to advise season ticket holders of the expiration of their tickets.

SCENERY.

It cannot be denied that the scenery on every section of this route is unsurpassed. The surface of the country for the first ten miles is beautifully variegated, presenting a continual succession of picturesque views of the country, the city, and the sea. Its hill-tops and valleys are decked with splendid dwellings and tasteful cottages, and nowhere can be found the union of town and country more complete.

RESIDENCES.

Dorchester, Milton, and Quincy afford locations for some of the most delightful and healthy residences. Savin Hill, Harrison Square, and Neponset, from their proximity to the city, and their attractive scenery, have become favorite places of residence.

PLYMOUTH

Presents great inducements for individuals seeking health or pleasure. The Samoset House furnishes excellent accommodations; then there are Plymouth Rock, Pilgrim Hall, and the graves of the Forefathers, calculated to awaken pleasant recollection. The numerous ponds in the vicinity of the village afford good fishing, and the beach and roads through the woods are delightful places for a drive.

ATTRACTIONS.

An occasional ride in the cars as far as Braintree will amply repay one for the trifling sum exacted for fare. In passing through the village of Quincy, the venerated mansion of the "elder Adams," and afterwards the residence of the "Old Man Eloquent," can be seen.

PATENT AGENCY.

13 Exchange St., Boston.

SAMUEL COOPER,

Late Chief Examiner in the U. S. Patent Office,

PROCURES PATENTS IN THIS AND FOREIGN COUNTRIES.

His long official connection with the Patent Office has rendered him familiar with its rules and practice, and with the history of invention in this and other countries; and this experience, with the frequent visits which he makes to the Patent Office, justifies him in saying that his Agency offers to inventors all the advantages of one located in Washington, and, in addition, those which result from a residence in the midst of mechanical and manufacturing industry.

Advice given upon all matters relating to the validity, &c., of patents, the novelty and patentability of inventions. Specifications and Drawings prepared; Caveats filed; Reconsiderations procured of applications that have been rejected upon imperfectly prepared papers; Cases of interference, and applications for extension and re-issue, prosecuted; and, in general, all business connected with the Patent Office transacted with care and promptness.

British and other foreign patents procured, through prompt and confidential agents in London and Paris.

Persons residing at a distance may obtain all necessary information, and have their business transacted by writing to the subscriber, without the trouble and expense of a visit to Washington.

He begs leave to refer those unacquainted with him to the following testimonials:—

FROM THE HON. CHARLES MASON, COMMISSIONER OF PATENTS.

U. S. PATENT OFFICE, FEB. 28, 1855.

I take great pleasure in stating, that, during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been engaged as Solicitor, and has been, in that capacity, in constant correspondence and intercourse with the Office. He has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the Office; a close attention to the interests of his clients; and a marked candor and courtesy that have rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with this Office with whom I am acquainted.

CHARLES MASON, *Commissioner*.

FROM THE EXAMINERS IN THE PATENT OFFICE.

The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, lately a Principal Examiner in this Office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the Office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

J. M. READ'S PATENT KITCHEN RANGE.

Sixteen years' experience has enabled the inventor to perfect a Cooking arrangement that is superior to all others. In his Range everything required for convenience and comfort in the kitchen is provided for. It is capable of doing the work for a boarding house of fifty persons, and at the same time may be used in a family of six, with the same economy of fuel as a first-class cooking stove,—not consuming, with proper care, over four tons of coal a year. Warranted to work equally well in every respect with either Wood or Coal.

N. B. It is fitted for Bath Boilers, and for heating extra rooms. The Tin Kitchen for roasting is complete.

STEARNS & CO.'S PREMIUM GLYCERINE SOAP.

This first-class Soap cleanses Silk and Woollen Fabrics with but small cost of money, time and labor; and though powerful and expeditious in its action, is not in the least injurious. Laces, Linens, and Embroideries are rendered by its use transparently clear and white. Any kind of water may be used, either hard, salt, or soft. For cleansing paint, and for general housework, it is highly recommended, while for removing Tar, Pitch, and other adhesives from the hands, ink and fruit stains and other discolorations from clothes and linens, it has no equal. Eminent chemists pronounce it the *purest, cheapest, and best*, and to attest to the truth of their statements, use it in their families. The Glycerine it contains makes the hands white and soft, the complexion fair and healthy; and it is, for this reason, as also for its economy, rapidly coming into use for the toilet. As a curative it has remedied chapped hands and salt rheum, and is a preventive of these and other cutaneous diseases. This Soap is white and handsome, and is free from all unpleasant odor.

Possessing these highly commendatory qualities, and being sold as low as most other Family Soaps, you will find it very much to your advantage to give it a trial, for which purpose samples will be furnished gratis. It will testify for itself, though we can furnish many of the highest testimonials. Liberal discounts will be made to dealers. SHIPPERS WILL FIND THAT THIS SOAP WILL GIVE FULL SATISFACTION TO THEIR CONSIGNEES.

The above cut shows what it is and how it is manufactured. Two sizes of this fuel are prepared, which is distinguished as the Coarse and Fine. One size is made of small trees and limbs from three inches in diameter down to the smallest twigs, cut four inches long, by machinery, and is designed expressly for kindling Coal Fires. The coarse (or large size) is made of trees from three to six inches in diameter, and is cut six inches long, and is designed for summer use, stationary engines and wash-boilers, and to take the place of wood (in families) generally, and is considered cheaper than cord wood.

Granular Fuel is a very good and cheap article for Blacksmiths' use in setting tire. In fact, it is acknowledged by thousands to be the most useful article that has ever been introduced.

GIVE IT A TRIAL !

Orders left at J. BRADLEY'S, Basement Old State House, S. P. TAYLOR, 101 State Street, GEO. L. DUNBAR, 94 Harrison Avenue, S. S. STANLEY, 51 Sudbury Street, CLARK & WOOD, 109 Hudson Street, S. S. RUSSELL, corner of B Street and Broadway, *South Boston*, or at the Office, foot of Fayette Street, will be promptly attended to. Also, orders left in Charlestown at DAVID B. FOX'S, 76, and WILLIAM ABBOTT & CO.'S, 174 Main Street. Also, in Roxbury at J. B. HALE'S, corner of Grove Hall Avenue.

BOSTON, December 17, 1861.

We, the undersigned, do certify that we have been using Daniels' Patent Granular Fuel, manufactured and sold by WILLARD M. HALL, of this city ; that we find it a very superior article of fuel, more convenient to use than split wood or charcoal, either as a kindling material or as a summer fuel where protracted heat is objectionable ; there are no disadvantages attendant on its use ; much time and labor is saved by using this fuel. We freely and cordially recommend its use to all householders, feeling assured experience will corroborate its advantages as above.

48 MERCHANTS' EXCHANGE, BOSTON, Jan. 11, 1862.

DEAR SIR:—I have used your Granular Fuel for some time past, and I consider it the best thing for kindling I have ever used. I consider it more economical to use than either split wood, charcoal or other kindlings, and have no hesitation in recommending it to those who are in want of an article for kindling which is free from dirt of every description.

I have no doubt that your fuel shall only have to be seen to be appreciated.

To WILLARD M. HALL, Esq.

Yours respectfully,

CHARLES T. POWELL.

JAN. 8, 1862.

DEAR SIR:—The result from the use of your Granular Fuel as compared with cord wood or charcoal, I find to be *one-third less cost*. In point of cleanliness and convenience, it is far preferable. It requires no other than itself to kindle. It is equally useful in families as for hotels, and at the hands of unprejudiced persons will be, I have no doubt, generally acknowledged.

To W. M. HALL, Esq.

Respectfully, &c.,

Proprietor Worcester Exch. Hotel, No. 27 Albany St., Boston.

Steam Engines, Shafting, Pulleys and Hangers, Hand Lathes, Chucks, Slide Rests, Ball Turning Machines, Hoisting Machines, with Safety Apparatus attached, and Belting, on hand and manufactured to order.

The above cut represents a first-class Lathe, with Nason's Patent Screw-Chasing Apparatus attached.

N. B. — GEO. H. FOX & CO. are the ONLY authorised Manufacturers and venders in the United States of the above Patented apparatus.

The Lathe is particularly calculated for the manufacture of Steam and Gas Fittings. It is arranged to be used for turning, boring straight or taper holes, boring cocks, facing plain surfaces, and screw chasing.

The Section of Shafting with Coupling here represented needs no explanation; its advantages will be seen by every mechanic and manufacturer. This plan of Hangers and Coupling has been in use some eight years, and has given universal satisfaction. It is fitted with Patent Boxes, which ADJUST THEMSELVES TO THE SHAFT, and in every way calculated for economy in oil, to prevent friction; and for durability it is unequalled.

Portable Engine, Locomotive Boiler. From 8 to 40 Horse Power.

MARINE, STATIONARY, PORTABLE, PILE-DRIVING, & HOISTING STEAM ENGINES.

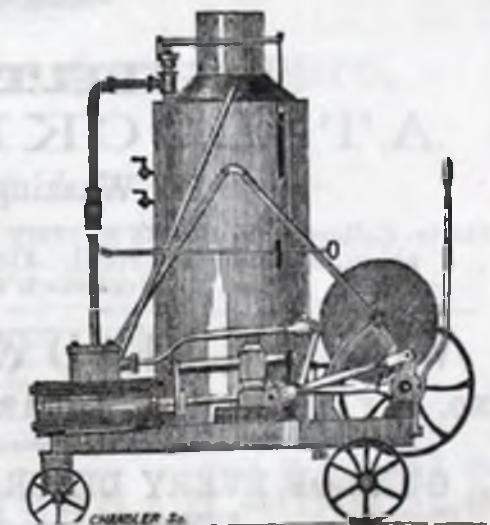

We would call the attention of the public to our IMPROVED PORTABLE STEAM ENGINE, in which all the working parts of the Engine are built on an iron frame (like a common Stationary Engine), thus avoiding the heat from the boiler to the working parts of the Engine, and the strain on the machinery caused by the expansion of the boiler; making both Engine and Boiler more durable than the usual style of Portable Engines.

These Engines are designed for all purposes where Stationary Engines could be used, and for loading and unloading vessels, Pile-Driving, small Steamboats, and Mining purposes.

They do not require any brick-work, and are ready for operation on delivery. The Boilers are warranted to carry 100 lbs. per inch.

Portable Engine, Upright Boiler. From 4 to 12 Horse Power.

PACKER'S IMPROVED PATENT RATCHET,

MANUFACTURED BY THE EAGLE RATCHET CO.

H. H. PACKER, Sup't, 69 HAVERHILL ST., BOSTON.

The above named Ratchets have been before the public for the last three years, and have given perfect satisfaction in every respect,
 the sales having reached to nearly two hundred Ratchets per month, and the demand is increasing rapidly. All that have used them
 speak of their superiority in strength, accuracy and durability over any other Ratchet.

The drill socket (4), and the screw barrel (3), being combined, as shown, make it of superior strength. The admirable arrange-
 ment of the outside shell (1), with the screw barrel (3), and the internal screw, effectually protect the male screw (2) from dust and
 other foreign matter, thereby making comparatively a perfect tool. We make five sizes, — from No. 1 ten-inch handle to No. 5 twenty-
 inch handle. One drill will fit all sizes. Cast steel drills of all sizes made to order. We also manufacture and keep on hand Auger-
 Ratchets, made so they can be used as a Ratchet Wrench or Drill. Boiler-maker Ratchets that can be used in four-inch space, Sew-
 ing-Machine Ratchets that can be used in two-inch space. Also, Box or Socket Ratchet, suited to all kinds of bolt and nut-work
 for engine-manufacturers, engineers, boiler-makers, railroad, bridge, and car-work, coach and carriage work, &c. And we are pre-
 pared to manufacture all kinds of Ratchet work to order. Every Ratchet is manufactured under our own supervision, in the best
 manner, with steel screw, pall and gear, and warranted perfect in every respect.

P. S. — Small Machinery neatly and promptly executed.

Containing THE LATEST NEWS, FOREIGN and DOMESTIC; TELEGRAPHIC DISPATCHES; PUBLIC DOCUMENTS OF INTEREST, IN FULL; LEGISLATIVE, LEGAL, and LOCAL REPORTS; LITERARY, DRAMATIC, and MUSICAL REVIEWS; CRITQUES on the FINE ARTS; MISCELLANEOUS READING; and especially MARINE COMMERCIAL, and FINANCIAL INTELLIGENCE. — prepared by skilful and experienced hands in every department.

NATHAN HALE, CHARLES HALE, AND CHARLES F. DUNBAR, EDITORS.

CHARLES HALE, PUBLISHER.

The matter in this paper is so arranged that the latest news can always be presented in full, without curtailing the space devoted to other departments.

THE FOREIGN NEWS IS CAREFULLY PREPARED FROM FULL FILES OF ORIGINAL PAPERS RECEIVED BY EACH STEAMER.

The BOSTON DAILY ADVERTISER is an independent journal, and will continue to be so maintained. It never enjoyed any pecuniary advantages as the organ of any party committee; and the proprietors are proud to say, that they have accepted no presents, and are under no obligations for forced subscriptions, or the subsidies of partisan retainers, ready to maintain by extraordinary efforts an organ for the dissemination of opinions which would not receive the spontaneous support of the community at large.

Our advertising friends will be pleased to learn that our circulation constantly and steadily increases, notwithstanding adverse circumstances; and this is the case although we have been taking great care to rid our books of all unprofitable subscriptions, which are as worthless to advertisers as to ourselves. We know very well, that, in point of mere numbers, our circulation is exceeded by that of some other journals which are published for a less price; but, in the character and substantial worth of the CIRCULATION for advertising purposes, we believe ours to be UNSURPASSED; and this we know to be a fact, ascertained from actual experience by several of the leading houses in the principal branches of business of all kinds, both wholesale and retail. The

fact is no doubt partly due to the circumstance that we take no pay for anything appearing as editorial, which gives all advertisers a fair and equal chance, and compels the attention of readers to the advertising columns; and also to the fact that the paper is generally read at their dwelling-houses and places of business, and often preserved on file, by subscribers who take it because they want it, and value it for its own sake, and not because they have been solicited to give it their patronage.

Other features, to which we invite the attention of the public, are our weekly statement of the value and amount of imports of foreign goods at the port of Boston, prepared exclusively for this paper (additional to the daily reports of the names of importers); weekly statement of the condition of the banks in Boston, and monthly statement of the other banks in Massachusetts, published by authority. These statements are published also in the Semi-Weekly Advertiser, and in our Weekly Issue. The laws of the United States and of the Commonwealth of Massachusetts, and the Pilotage Regulations, are published in this paper by authority, as well as all other official information designed for the public.

THE SEMI-WEEKLY ADVERTISER, AND THE DAILY ADVERTISER, WEEKLY ISSUE,

Contain substantially the same reading matter as the DAILY ADVERTISER; but less space is occupied with advertisements, of which very few appear in the WEEKLY ISSUE. Terms of the Semi-Weekly, three dollars per annum; of the Weekly, one dollar.

All of these papers are printed for mailing on a sheet weighing "not over 1½ ounces," and are accordingly chargeable for postage at the lowest rate; viz., a quarter of a cent for each paper within the State, when paid quarterly in advance.

From the Providence Journal.

THE BOSTON DAILY ADVERTISER. — For the dignity and fairness and independence of its conduct, for the fulness and reliability of its news, and for its value to readers and advertisers, the Boston Daily Advertiser stands in the front rank of journalism.

From the National Intelligencer.

THE BOSTON DAILY ADVERTISER. — A paper so wise, so instructive, so cautious, and so truthful, deserves every success; and its success is a credit to the community which it ably serves and enlightens.

From the New York Shipping List.

THE BOSTON DAILY ADVERTISER. — The Daily has long since acquired the reputation of being the best marine journal in the country, and as a literary and political publication it ranks deservedly high.

From the Newark Daily Advertiser.

THE BOSTON DAILY ADVERTISER, which has been an ever-welcome visitor, will doubtless continue to be managed with the same dignity, energy, and intelligent appreciation of right prin-

ciples which has hitherto rendered it foremost in the history of New-England journalism.

From the Concord, N. H., Statesman.

In no newspaper, of which we have knowledge, are political and other editorial articles to be found better calculated to make intelligent politicians and well-informed citizens, than the Boston Daily Advertiser.

From the Salem Register.

The substantial and reliable character of the Boston Daily Advertiser has been a "fixed fact" for many years, and the fulness and accuracy of its shipping list and commercial department long ago became a proverb. Its literary reputation, too, is up to the highest standard of daily journalism; and in politics it is a strong and able advocate of the interests of the people. In all points it is a sterling, first-class paper.

From the Dedham Gazette.

Honest and decided in the expression of its own views, it is always manly, dignified, and courteous towards those who may differ with it in opinion; and we know of no journal in the State that exercises a wider or more wholesome influence than the Boston Daily Advertiser.

TO CLUBS. — We will send four copies of the Daily Advertiser, New Year, by mail, for twenty-five dollars; five copies for thirty dollars; or ten copies for fifty dollars, — payable invariably semi-annually in advance. We will send the same number of copies of the Semi-Weekly Advertiser for half these rates.

ADVERTISEMENTS ARE INSERTED AT THE FOLLOWING RATES: — For one square, or twelve lines of agate or nonpareil matter, one insertion, one dollar; each repetition inside, 50 cents; outside, 25 cents.

Six lines or less are counted half a square; and seven, eight, or nine lines, three-fourths of a square.

Advertisers who prefer a fixed annual charge, by the payment of forty dollars become entitled to the daily paper for one year, and to advertise their own regular business exclusively, to an average extent of one square on the outside, or half a square on the inside. Copartnership notices, wants, removals, stores to be let, &c., are not included in the yearly privilege, and are charged extra, at the regular rates. The same arrangement may be made for six months, for twenty dollars; or for three months, for fifteen dollars; and for a larger space on the same basis.

MUTUAL LIFE INSURANCE. NEW ENGLAND MUTUAL LIFE INSURANCE CO.

OFFICE IN THE COMPANY'S BUILDING, 39 STATE ST., BOSTON.

Since commencing, February 1, 1844, to July, 1862, has made out 12,000 Policies.

The amounts from \$200 to \$15,000 each. Largest amount taken on one risk, \$15,000. Insures lives only.

Fund accumulated, owing to the favorable turn of the risks thus far, over \$2,200,000, well invested for the proportional benefit of those who shall become, as well as those already, members. Surplus to be refunded to members at the end of every five years from Dec., 1843. The distribution of Dec., 1858, amounted

to 36 per cent. of the premiums paid in five years. Premiums may be paid quarterly, or semi-annually, when desired, and amounts not too small. All the premiums earned by the Company are paid to it, and no member pays in his note or money against the notes (good or bad) of other members.

Forms of application, and pamphlets of the Company and its reports, to be had of its agents, or at the office of the Company, or forwarded by mail.

S. E. CHUBBUCK & SONS,

PRACTICAL MACHINISTS,

TREMONT STREET, NEAR BOSTON LINE,
ROXBURY, MASS.,

Manufacturers of

STEAM ENGINES AND BOILERS,

Of all sizes and patterns, which we warrant to run as economically
and be as durable as any manufactured.

This cut represents a compact PORTABLE GOTHIC ENGINE AND BOILER, of our pattern, which is peculiarly adapted for driving all kinds of light machinery.

SHAFTING MADE, PULLEYS AND HANGERS FURNISHED, from the most approved patterns. Also, Machinery of all kinds, such as SAW, PLANING AND GRIST MILLS. JOBBING of all kinds done in a thorough and workmanlike manner.

TANNERIES

Fitted complete with all modern Machinery,—Engines and Boilers, Bark and Fulling Mills, Elevators, Railways, Tanning Wheels, Rolling and Splitting Machines; also, Pumps for hot and cold liquor.

BREWERIES

Furnished with Engines, Boilers, or Horse-Power, Mash-Tubs, Malt-Mills. Pumps, Piping, &c., &c.

STEAM HEATING.

Particular attention will be given to the construction and putting up of Steam Heating Apparatus in Hotels, Factories, and Dwelling Houses, all of which we will warrant to give perfect satisfaction. This apparatus is self-regulating, therefore it requires no practical engineer. In dwelling houses it can be managed by any domestic with perfect safety. Having had a long experience in building, putting up and arranging Machinery, we feel confident that all work entrusted to us will give entire satisfaction. Our works are on TREMONT STREET, near Messrs. Chickering & Sons' Pianoforte Manufactory.

We would call the attention of all who intend to put Steam Heating into their buildings, to our new patent design.

S. E. CHUBBUCK,

[Late of the firm of CHUBBUCK & CAMPBELL.]

I. Y. CHUBBUCK,

S. E. CHUBBUCK, JR.

All calls will be attended to in person, for the examination and alteration of Steam Engines and Machinery. Also, the arranging and putting up of Steam Heating Apparatus. S. E. CHUBBUCK.

IRON SHIP BUILDING.

HARRISON LORING,

CITY POINT WORKS, SOUTH BOSTON,

BUILDER OF

IRON STEAMSHIPS,

AND

MARINE ENGINES, BOILERS, AND TANK-WORK,

OF EVERY DESCRIPTION.

Sugar-Cane Mills, Pumps, Presses, Shafting, and all kinds of Mill-Gearing. Also, Loring's Improved Revolving Bleaching Boilers, for Paper-Mills.

The conveniences and facilities at the CITY POINT WORKS for the above work are not surpassed in America; having a water front of 550 feet, and seven acres of land, upon which are erected two large Ship-Houses, in immediate connection with the extensive Boiler, Blacksmith, and Machine Shops, which are supplied with the best tools in the country. Having a Pier over 700 feet long, can offer great inducements in REPAIRING STEAMSHIPS, and other Marine Work, in the most efficient manner, and with great dispatch; and will further state to persons desirous to examine my work, that the Iron Steamships "SOUTH CAROLINA" and "MASSACHUSETTS," and the Machinery of the United States sloop-of-war "HARTFORD," are some of my recent construction.

Thankful for the liberal patronage heretofore bestowed, I hope by strict personal attention to insure its continuance.

WORKS OF THE BOSTON BELTING COMPANY, ROXBURY, MASS.

Semi-Elastic Pipe, A SUBSTITUTE FOR LEAD PIPE.

Patented by Charles McBurney, December, 1858.

We have, during the last two years, manufactured and introduced into market 100,000 feet of all sizes, from $\frac{1}{2}$ inch to 3 inches diameter, and have no hesitation in saying, that for the purpose of conducting water, it is superior, in every respect, to any other article yet brought into use. It possesses the following properties:—
It imparts no deleterious substance to the water under any circumstances, nor in any way affects it unpleasantly after a few days' use.

It is sufficiently elastic to be easily bent into curves, &c.

It is not affected by either heat or cold.

It will not burst if water is frozen in it.

It is not injured by exposure to the atmosphere or sun.

It may be coiled and transported in almost any way, and (if handled with care) innumerable times, and, from its elasticity, cannot be easily made to collapse.

Its durability must be great. Samples can be shown which have been in constant use exposed to the atmosphere for five years, and also some that have been attached to a common house pump and buried in the earth for three years, none of which show any sign of decay. In short, the pipe is composed of ingredients which are indestructible except by fire.

The price at which this article is offered, must, together with its invaluable properties, commend it to all who are in want of pipe for conducting water.

It can be made of any size, from $\frac{1}{2}$ inch to three inches or more.

Couplings and suitable connections are prepared and can be furnished with it, made of a compound metal, which will not corrode.

Half inch, 12 cents per foot. Three quarter inch, 17 cents per foot. 1 inch, 27 cents per foot.

TAYLOR'S PATENT.

H. R. TAYLOR,
CABINET-MAKER,

132 Washington Street, Roxbury, Mass.

MANUFACTURER OF

Taylor's Patent Self-supporting Drawer,

So arranged as to be drawn out to its fullest extent, and to support itself in that position, it being impossible for it to fall; and yet capable of being removed from the case and replaced with the same facility as a common drawer. There is none of that disagreeable side motion and sticking of the drawer, nor is it necessary to exert one's utmost strength to pull it out or put it in. It is peculiarly adapted for tellers' drawers, money-drawers, &c.

Its advantages are perceptible at a glance; and the necessity of such an improvement warrants for its success. It has already been introduced into many public buildings and private houses, and has everywhere given complete satisfaction. Persons desirous of seeing specimens of work are invited to call at his manufactory, No. 132 Washington Street.

TAYLOR'S PATENT CRIB and CRADLE constantly on hand and

for sale. WINDOW-SHADES of every description furnished at the shortest notice.

PATHOLOGY OF THE REPRODUCTIVE ORGANS: by RUSSELL T. TRALL, M.D. THE SEXUAL ORGANISM; by JAMES C. JACKSON, M.D. Boston: B. LEVERETT EMERSON, No. 129, Washington Street.

"The treatises in this volume are upon subjects of the utmost importance in a physiological point of view. These subjects are handled in an able manner. The authors are medical men of large experience; and the advice which they give is sound, and applicable alike to the guidance of parents and to the benefit of the young. A perusal of the work will do much to secure healthy mental and bodily functions: while, to suffering humanity it offers judicious advice, which may save many from complicating their sufferings by resorting to quack-doctors and empirical treatment."—*Boston Journal*.

CORNS, BUNIONS, CALOSITIES,

successfully cured by using

DR. J. BRIGGS'

CORN AND BUNION ALLEVIATOR.

PRICE, TWENTY-FIVE CENTS.

OFFICE, NO. 212 BROADWAY, NEW YORK.

SOLD BY DRUGGISTS GENERALLY. SENT BY MAIL ON RECEIPT OF 30cts. IN STAMPS.

Entered according to Act of Congress, in the year 1862, by Josiah Briggs, in the Clerk's office of the District Court of the United States for the Southern District of New York.

Years of experimenting and study have resulted in the production of this valuable preparation, which effects a cure without pain or inconvenience—a beautiful and desirable application, as well as the safest, cheapest, and most effectual remedy in existence for the safe and perfect cure of all hard indurated substances which afflict the feet of mankind.

The process of cure is not to burn or eat the excrescence, but the Alleviator acts upon it in such a manner as to cause it to separate and entirely disappear from the foot, leaving it sound and free from any disagreeable sensation. The boot or shoe can be worn at all times after the application with perfect ease.

DR. BRIGGS feels justified in warranting his Alleviator to effect cures both satisfactory and surprising. A cure for the maladies of the feet has long been sought for, and has never been satisfactorily accomplished until the production of his preparation. Although the number of different “never-failing” remedies are many, still they have been applied without satisfactory results, therefore the public will have to be convinced of the merits of this preparation before it can obtain confidence. The surest way is to make a trial, and, if successful, the cure will be worth many times as much as was previously expended in worthless compounds, all of which are warranted to be “unequalled,” and “not to injure the most delicate foot;” but experience has taught many afflicted persons that some of these “curative” preparations possess more of the killing than of the curing qualities, as they have been made lame in some cases for weeks, and others have actually lost their lives by using those “vegetable compounds,” as they are called—made from potash and acids. In view of these facts, it is a wonder that persons who have suffered from such imposition can be induced to make another trial; but as their sufferings are so severe, and permanent relief so important, like drowning men they catch at straws, and when they are satisfied that the article prepared by DR. BRIGGS is truly reliable, the excitement to obtain a supply could only be equalled by a ship on fire filled with human beings.

DR. BRIGGS' ALLEVIATOR is destined to secure public confidence by its own intrinsic merits. This preparation is simple and pleasant in its application—satisfactory and surprising in its results. The action is harmless—relief immediate and complete after the application.

There is, in general, no member of the body more abused than the feet, (the chests of stay-wearing ladies scarcely excepted,) and the certain penalty is corns, callosities and deformities, an unspeakable amount of pain, and, in the course of time, a partial or complete destruction of the powers and capacities of one of the most essential of the bodily organs. The feet, with proper care and attention, would be as free from pain and disease as the hands, their structure and adaptation to the wants and comforts of mankind being naturally perfect. Thirty-six bones and thirty-six joints have been given by the Creator to form one of the most useful of extremities, and yet man cramps, cabins and confines this beautiful arrangement of one hundred and forty-four bones and joints, together with muscles, elastic cartilage, lubricating oil, fluid, veins and arteries, into a pair of boots or shoes, which, instead of forming a protection, produce the most painful and aggravating torments, the memory of which will be fresh in the mind of the sufferer years after, even if they have been relieved by one who has devoted years of study to one of the most important, yet much neglected branches of the curative art. Long may such live to enjoy the blessings conferred by the use of DR. BRIGGS' CORN AND BUNION ALLEVIATOR, in the removal of those excrescences which entail more pain and suffering than afflictions in any other part of the body. Yet diseases of the feet are considered by most persons of such trifling importance, that they are hardly noticed at all, nor are any precautions taken, until the individual finds his feet blistered and inflamed by the pressure and friction of the boots, when years of suffering might easily be avoided. The chafing of the badly-fitting boot is, however, often continued until the result is corns, bunions, callosities, etc., etc.

SPEAKING OF CORNS—It is the belief of some philosophers that corns came into the world with tight boots, and that they were totally unknown to the ancients, as they wore sandals and other yielding coverings for the feet. It is doubtful whether the whole Roman Empire could have produced a single corn or bunion, while it is equally certain that there is no mention made of a chiropodist in Scripture. We read of no chiropodist in the Iliad, the oldest of all poems. All this proves that corns, like newspapers and vaccinations, are modern inventions. The first leather boot probably led to the first corn, the first bunion, the first swearing at the feet.

But, notwithstanding corns are a late production, they soon became universal. They are now found in all parts of the old and the new world. They are to be met with in the palace of the king, and in the cabin of the ploughman. They are found in London, Paris, and New York. They flourish on the Thames, grow luxuriantly on the Hudson, and yield magnificently on the Mississippi.

Who has not suffered from corns, bunions, frosted and blistered feet, chilblains, &c.? Who has not been willing to make almost any sacrifice and incur any expense to effect their cure? but as years rolled on and no relief came, the sufferer has concluded that they were inevitable evils, and has suffered, and still continues to suffer martyrdom from these apparently simple causes. Everybody should be glad to know that all the torments to which the feet of men are subject will soon be numbered among the things of the past, owing to the victorious success of BRIGGS' ALLEVIATOR, the conqueror and demolisher of the great foes to mankind's toes.

Sold by all the Druggists, Dealers in Druggists' Glass Ware, Surgical Instruments and Fancy Goods, in the United States.

BE CAREFUL AND GET DAVIDSON'S.

Owing to the reputation which this instrument has attained, imitations of it have been put into the market at different times, but, having been worthless things, as well as infringements, have soon killed themselves.

Thousands of our instruments are now in use, and the demand for them is constantly increasing. If you once use one for complaints where Cathartics are generally used, you will never again permit your system to become debilitated by the use of drugs. DAVIS'S PATENT HOT-AIR RADIATOR, FOR WARMING AND VENTILATING ROOMS.

ITS SUPERIOR ADVANTAGES.

1. By the use of this Radiator, *a whole house, Kitchen, Parlor, Dining Room, and Chambers, may be warmed by the heat of one fire.* The waste heat, before escaping from the chimney, is made to pass into each room through the Radiator, leaving warmth and heat as it goes off again into the flue. The Radiator thus *saves and uses* the waste heat from stove, range, furnace or other fire.

2. It *costs less*, and secures greater *economy of fuel and labor* than by any other mode of heating.

3. It secures an *agreeable and healthful atmosphere*, free from the injurious and unwholesome annoyances of dust and ashes which are inseparable from the use of stoves and furnaces.

4. It has great advantages over other modes of heating, in its perfect and simple arrangement for admitting and controlling the introduction of *FRESH AIR*, and securing *free and healthful ventilation*.

CHANDELIERS, BRACKETS, PENDANTS, ETC.,

We would respectfully invite those persons who are about to introduce Gas into their dwellings, to call and satisfy themselves that we have the LARGEST AND BEST-SELECTED STOCK IN THE CITY, and that we are also prepared to sell them at satisfactory prices. Having had some twenty years' experience in the introduction of Gas into buildings in this city, and employing none but experienced and civil workmen, we feel confident, with our present low price per foot for introducing and fitting gas-pipe, of a continuance of the liberal patronage we have heretofore received. Orders left at

SELF-ADJUSTING CLOTHES WRINGER.

This is an improvement over all other kinds, as it adjusts itself to any size article, from a handkerchief to a bedquilt, and will not get out of order. Owing to the popularity and complete success of our machines, other parties are selling an inferior article by adopting the name of "Self-Adjusting." Our Machine is made of wood with rubber bands, which we warrant not to break or stretch a half an inch in two years (notwithstanding what other manufacturers say), and our name is plainly marked on each Machine. Any one purchasing can return it after one month's use, and get the money they paid for it, if not satisfied. For sale by

GAS CONSUMERS

Who regard economy as a rule, will do well not to buy anything of the kind till they have examined

Norton's Improved GAS REGULATOR.

It saves from 15 to 35 per cent.

This Regulator is made on strictly scientific principles, perfect in its construction, and CANNOT GET OUT OF REPAIR, as there is no friction or adhering together of any of its part—and there cannot be. There are no two surfaces that can ever come in contact, its valves always working in quicksilver, unlike any other machine in the market. NORTON'S GAS REGULATOR cannot gum up or stick together.

**A. H. WOOD'S
GAS BURNING IMPROVEMENTS.**APPLICABLE TO ALL LOCALITIES IN WHICH
GAS IS USED FOR ILLUMINATION.*Please examine an Invention patented Feb. 19, 1861.*

The practical object of this improvement is, —

1. To use gas uniformly at less pressure than it is delivered by Gas Companies. This is the first step towards economy.

2. It is to control the supply of gas and light at each burner requisite to its locality, notwithstanding full force of gas is admitted at the stop-key.

3. As it is well known that tarry substance is liable to evolve from gas where throttled or checked, this improvement contains a basin (or receptacle) to retain this foul substance, and render its removal easy without injury to the fixture or burner; otherwise, it would obstruct the gas passage in the stop-key and at the delivery of the burner tip.

4. Its throttle or check is operated with a key; also allows the discharge or consumption of the gas to be regulated at pleasure, and placed within control, however the stop-key may be turned, thus proving a convenience and effectual guard against waste by servants, &c.

This fixture is applicable to all gas-burners, and proves very useful, especially in dwellings.

ENTIRELY NEW.

The Inventor of the above Machines, after an experience of many years as an inventor and manufacturer of Sewing Machines, believes that he has produced a Machine for family use and manufacturing purposes which cannot be excelled, combining

Economical Cheapness and Mechanical Perfection with Simplicity and Durability.

We desire the examination and comparison of our Machines with any and all others. Every Machine is manufactured under the superintendence of the inventor, and **SATISFACTION IS WARRANTED.** Read the following report of the Committee on Sewing Machines:—

“A. F. Johnson, Boston, Four Sewing Machines. They are deserving of much notice. There are two kinds exhibited by Mr. Johnson, of which he is the sole inventor; and he has a number of patents covering his improvements. They are all well adapted to all the different kinds of Family Sewing. These machines make the Double Lock stitch in a very superior manner. These machines are all of new patterns throughout. They are each mounted upon an elegant table, wholly original with Mr. Johnson. They are very simple in all their arrangements and perfectly effective, are very cheap and very ornamental, and they are sold at an extremely low price, placing them within the reach of most any family. Your committee, taking into view the whole ground, believe that Mr. Johnson has produced a machine perfectly new; and for its beauty and effectiveness as a Family Machine, they deem it worthy of a Gold Medal.”

P R O S P E C T U S
OF THE
National Quarterly Review
FOR 1862.

The June number begins the fifth volume. It is now almost superfluous to say that the "*National*" is not the organ of any clique or party. The well-known freedom with which the Editor criticises new publications has subjected him to the abuse and threats of a certain class of authors and publishers; but he is not one to be intimidated from exposing literary (or, rather, illiterate) imposture and charlatanism. While it affords no one more pleasure to do justice to the merits of a good book, he will fearlessly continue to strip the tinsel from brass sought to be palmed on the public as gold.

The liberal support he has obtained has enabled him to secure several new contributors — writers and scholars of the first class. Talent and culture will always be welcome to his pages, and, as much as possible, encouraged.

While aiming at being liberal and cosmopolitan in spirit, the "*National*" is decidedly American; unalterably attached to the Union, and in favor of maintaining it, in its integrity, at all hazards.

All subjects of public interest will be discussed in the Review; but without interfering with anybody's creed, whether religious or political. Education in every form will receive prominent and friendly attention; and whatever seems calculated to retard or vitiate it, whether under the name of a Text-Book, a Seminary, or a College, will be subjected to fearless, but fair and temperate criticism. In short, no pains or expense will be spared to render the work worthy of the character assigned to it by the leading organs of public opinion, at home and abroad — namely, "*the best of American Quarterlies.*"

Extracts from Notices and Reviews by Leading Journals.

This list is sufficient to show the great variety, no less than the intellectual interest, of the subjects discussed; and we feel bound to acknowledge that not one of these papers is of a second-rate order. They are all of the style and standard with which we have long been familiar in the best Quarterlies of London and Edinburgh. — *Boston Post.*

That gentleman (the Editor) is already widely and favorably known through his very able contributions to the *Westminster Review*, the *Dublin University Magazine*, *North American Review*, *Barnard's American Journal of Education*, and other similar works. — *Boston Banner of Light.*

The most animated and vigorous of all our Quarterlies, and will sustain a comparison with the best European publications of its class. — *Boston Traveller.*

This number of the *N. Q. R.* is very readable indeed. The interest of the *Review* is well enhanced and well kept up. We hope to see its prosperity (which we are happy to know is flourishing) increasing every day more and more. — *Boston Pilot.*

It is highly creditable to New York, and would not suffer in comparison with any of the English Reviews for learning and intellectual ability, while in its manner it is more sprightly, and contains greater variety, than the ponderous periodicals at the other side of the Atlantic. — *New York Herald.*

The December number of the *National Quarterly Review* confines itself to legitimate literary criticism. Its contents are well written, and the comments in most instances very able, and frequently displaying learning and talent much above mediocrity. — *Baltimore American.*

This would account for the little favor shown by us hitherto to the highest class of periodical literature, and the reason is so derogatory to us that we hail the success of the "*National*" with something akin to the pride and pleasure we would feel in the refutation of a disgraceful calumny. — *Metropolitan Record.*

It is altogether a valuable journal, breathing a cosmopolitan spirit, and should receive encouragement in this province. — *Toronto Leader.*

The Editor may be excused for observing that, before he had any journal of his own, it was nothing new for him to see his articles distinguished from others; not only highly praised, but translated. As an instance of this, he refers to the attention bestowed on his paper on the Sepoy Rebellion in the April (1858) number of the "*North American Review*;" the *Paris Revue Contemporaine* of July 31, 1858, speaking of it as follows, and translating long extracts: —

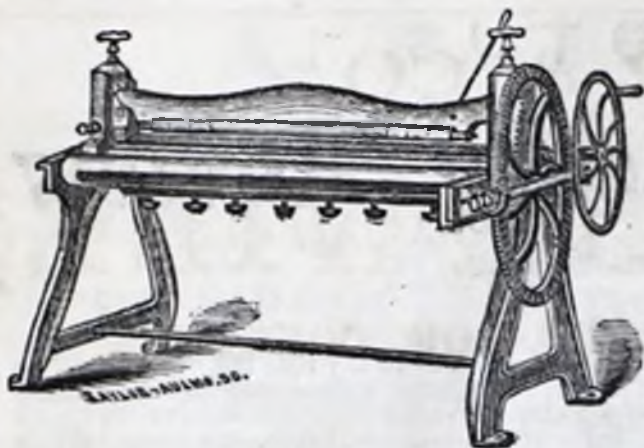

"C'est un vigoureux expose des griefs des populations indoues contre leurs oppresseurs, une véhémence revendication des droits les plus élémentaires et les plus sacrés de l'humanité cruellement et hypocritement foulés aux pieds par le vainqueur; c'est, en un mot, la justification très catégorique du soulèvement des Cypriotes. . . . Le *reviewer* Américain a en grand soin de s'appuyer à chaque page sur des documents anglais. Quand il en vient à parler de la répression de la révolte et des flots de sang froidement versés par la soldatesque anglaise tous ses sentiments d'homme civilisé se soulèvent, et il stigmatise ces excès avec une énergie que nous parviendrions difficilement à reproduire. L'ironie vient par fois se mêler à la véhémence et les triomphants bulletins des innombrables victoires remportées par les forces britanniques ne trouvent pas de grâce devant l'inflexible critique." — *Revue Contemporaine*, 2e série, Tome 4e., p. 432.

CHILSON'S PATENT
TRIO PORTABLE FURNACE.
FIVE SIZES.

Any intelligent mind cannot fail to see the wonderful economy in the consumption of fuel, by this invention, over the common Portable Furnaces. Immediately after the fire is kindled in the morning, the damper in the smoke-pipe is closed for the day; when the only escape for the heated smoke and gases is through the continuous tapering trunk or radiator, terminating in the smoke-pipe, which is reduced to a small vent of two inches in diameter.

The heated smoke and gases are thus compressed into the whole circuit of the trunk, and become wholly exhausted by radiation. The consequence is, that the formerly wasted fuel, which was lost by passing off in smoke and gases in a crude or unconsumed state, is here made available for generating heat.

Warranted a saving in fuel of fifty per cent. over any other Portable Furnace in the known world.

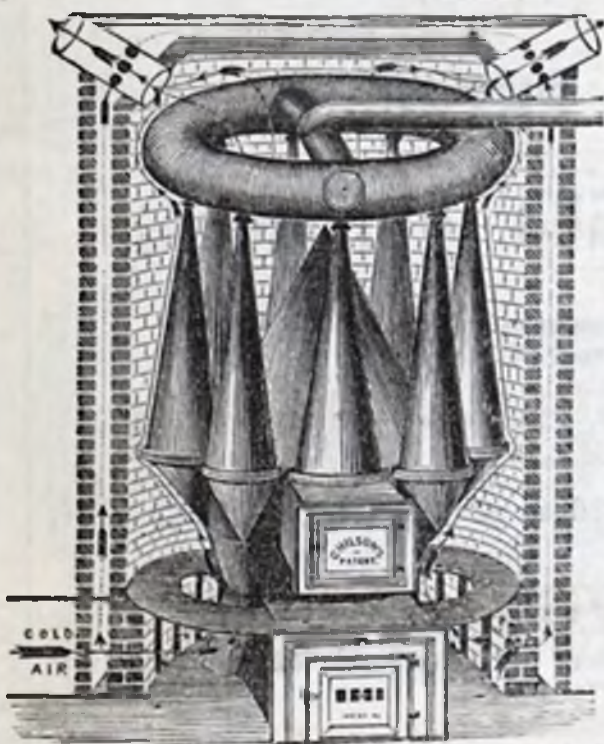

CHILSON'S PATENT
TRIO STOVE.
SIX SIZES.

THE
TRIO STOVE

Embodies the same valuable principles combined in the Portable Furnace. We think no prudent person will use stoves, as they have been formerly constructed, after becoming acquainted with this invention.

We obligate ourselves to prove, to the satisfaction of all, a saving of fifty per cent. in fuel, not only by seeing the stove in operation, but by a large number of the best testimonials that can be written.

PATENTEES AND MANUFACTURERS OF

EMERY'S PATENT CHANGEABLE RAILROAD HORSE POWER.
ALSO LEVER POWERS,

For Four, Six and Eight Horses, of new and superior construction, together with a great variety of labor-saving
AGRICULTURAL MACHINERY.

ALSO

General Dealers in Implements and Seed.

HORSE POWERS.

It has ever been the aim of the proprietors to make none but the first class of work, and always use the best materials and workmanship. In the construction of their Horse Powers they have endeavored to adapt them most readily and advantageously to the great variety of purposes required by the Farmer and Mechanic. The same considerations have guided them in the construction and adaptation of the various Machines made and sold by them, and to be driven by the power, in calculating their various velocities, forces, pulleys and gears, required to enable them to operate in their maximum efficiency, which is the great secret of their success.

THRASHING MACHINES

WITH

SEPARATING AND CLEANING ATTACHMENT.
 Combined and adapted for all kinds and conditions of grain, &c.

This machine is the greatest success in its line yet produced. It can be operated with two horses as easily, and with equal results, as the ordinary thrashing machine without the cleaning attachment; while its capacity adapts it equally well to the force of four or six horses.

It will thrash perfectly clean from the straw, and clean the grain for market without any wastage in any part of the process.

It is complete in one frame. Very compact and simple—runs light, still, and without any concussion from its moving parts. It has been very extensively used during the past two harvests, and its superiority over any others in market established beyond question, and considering its capacity and cost of construction it is at least fifty per cent cheaper than any other similar machine in use.

CLOVER MILLS AND CLEANERS.

This is a new Machine comparatively, and is believed to be one of the best Machines for the purpose ever made; can be driven by one, two, or more horses at a high or slow velocity, and do equally good work, and with wet and bad, as well as good condition, of the clover chaff. It cleans the seed and delivers it fit for market at the same operation.

STALK AND STRAW CUTTERS

For Horse Power—a strong and durable Machine, and adjustable to any length of cut.

SAWING MILLS.

With Circular Saws for Cutting Fire-wood, Slitting Boards, Plank, &c., for fencing and building purposes; also with Machine Cross-cut for cutting Logs for Wood, Shingles, Staves, &c.; also Mills for making Shingles.

FEED MILLS

For Grinding all kinds of Grain for Feeding, as well as corn in the ear when desired. Several sizes, and with or without Sieves and Bolts attached.

CIDER MILLS

For Power and Hand use, with and without Press attached. These Mills and Presses are of a superior style and utility to any others in use.

COTTON GINS

WITH

COTTON LINT CLEANER AND CONDENSER.

Cotton Gins with Improved Feeding Hoppers, with 30 to 100 Saws, calculated for one to eight horses. These are superior in finish and adaptation to the wants of the Cotton Grower, to anything of the kind before offered to the public.

The Lint Condenser is an attachment suited to any ordinary Cotton Gin; it receives the lint as it is discharged from the gin, condenses it and delivers it compact, ready for the press at one and the same operation, and at the same operation cleanses it from all earthy matter, as sand, dust, &c. It dispenses with the necessity of any lint room and large buildings, as the Gin may be equally as advantageously used in the field as the grain thrasher, and when used in buildings it requires no more additional room than the size of the Gin itself occupies. It is also a perfect safeguard against fire, as it is impossible for burning lint to pass through the machine without the fire being extinguished in its passage, thus making this Cotton Gin with its condenser fire-proof. They have been extensively used in Georgia the past two crops, and the cotton made by them has commanded an advanced price over that ginned by the best machines in use.

AGRICULTURAL IMPLEMENTS

Constantly on hand, embracing a large and selected assortment of Plows, Harrows, Cultivators, Dog Powers, Churns, Cheese Presses; also Forks, Hoes, Shovels, &c., always on hand at the lowest manufacturer's terms.

ILLUMINATED CATALOGUE.

The Proprietors have completed their new Catalogue the most complete and beautifully illustrated work ever published by any manufacturer, embracing a great number and variety of finely executed and carefully prepared

Illustrations and Descriptions,

together with ample references and indexes as well as the Prices, Terms of Sale, Weight, Cubic Measurements, Capacity, Directions for use, Durability and Warranty of their

Machinery, Implements, and Seeds.

On receipt of three cents in stamps to prepay postage, it will be sent to all applicants. Local Agencies solicited for the sale of the above Machines.

MAYNARD & NOYES' PERMANENT BLACK WRITING-INK.

MANUFACTURE ESTABLISHED, 1816.

Testimony of Parties who have used it for more than a Quarter of a Century.

REGISTRY OF DEEDS OFFICE, Boston, Jan. 10, 1859.

Messrs. MAYNARD & NOYES: Gentlemen,—I am glad that longer use of your Writing-Ink enables me to repeat the testimony given in its favor many years ago. I have used it in this office thirty-seven years, and my oldest records are as legible and black as when first written. This rare quality for permanence renders it invaluable for State and County Records, and all mercantile purposes where it is important that the writing should remain legible and unchanged in color by the lapse of time.

HENRY ALLINE, *Register of Deeds.*

BOWDOIN PUBLIC SCHOOL, Boston, Jan. 7, 1857.

Messrs. MAYNARD & NOYES: Gentlemen,—I have used your Ink in the Writing Department of this School the past thirty years, and take great pleasure in renewing my testimonial of its superior quality. It flows freely from the pen, its color is brilliant and permanent, and it combines all the necessary and desirable qualities of good Ink.

JAMES ROBINSON, *Writing-Master.*

The following extract of a letter from a well-known and long-established bookseller in Dover, N. H., is like many others often received, and will be found to express the opinion and correspond with the experience of a large number in the business:—

After trying various kinds of Ink, most of my customers come back to yours. I am tired of the miserable compounds offered every little while, pretending to be superior to all other inks, and will have nothing further to do with them. I have used your Ink on my books over twenty-six years, and my customers can see how it stands against time. Entries made in 1832 are as fresh as those made during this year.

Dover, N. H., October 16, 1858.

MAYNARD & NOYES' COPYING INK.

This Ink yields a copy as distinct and perfect as the original. It also combines all the properties of our Writing-Ink, for which it can be substituted.

MAYNARD & NOYES' CARMINE INK.

This article is a beautiful red or crimson color, and surpassingly brilliant and rich. It is free from sediment, and will not mould, fade, or turn dark by exposure to the air.

The above popular Inks, together with Blue, Red, Indelible, and Stencil Ink, Chemical Writing-Fluid, Ink-Powder, &c., are for Sale
